Chairman's Message of Appreciation of the Honourable Patrons

On this auspicious occasion of the 18th Anniversary Dinner of our Society, we have the greatest pleasure in awarding Certificates in appreciation of the meritorious and exceptional contributions by the two Honourable Patrons of our Society to our work to protect the harbour which are briefly set out in the following. For as long as Hong Kong will still have a Victoria Harbour, they will be remembered by the people of Hong Kong.

Madam Cissy V. Chu nee Fok Wing-Yue was an ordinary housewife born in Hong Kong and married to the late Mr. Vinson Chu Yuen-Chee. Madam Chu genuinely cared about Hong Kong and was passionate about the Harbour. In 1994, she had the vision, courage and determination to stand up and oppose the Government's reclamation plans. She was the moral and spiritual leader of our Society and had generously financed the litigations and other activities undertaken by our Society. She initiated the "Save Our Harbour" Campaign and attended all the Legislative Council debates leading to the enactment of the Protection of the Harbour Ordinance as well as the court hearings of the harbour cases which interpreted the Ordinance. She will be remembered by the people of Hong Kong as the little old lady who aroused the public during the Blue Ribbon Demonstrations and who sat in the middle of the old Star Ferry Concourse collecting signatures for the Campaign.

The Honourable Dr. Simon Fook-Sean Li needs no introduction because for half a century he was revered as an outstanding leader of the legal fraternity as well as the Hong Kong community. His achievements and services to China and Hong Kong were innumerable. By the award to-day, our Society wish to honour his memory for the invaluable and unique guidance, support and assistance he gave us from the inception of our work when no one else of stature and influence would do so publicly. He made generous donations to our Society and participated in many of our activities including our attempt to preserve the Tamar Reclamation Site for public use and enjoyment. He also supported our "Harbour Day" and "Walk For The Harbour" when the public were surprised and inspired by the former President of the Court of Appeal walking alongside them. His open opposition to the Government's reclamation policy and his passion for the harbour galvanized the people of Hong Kong for which he will be forever remembered.
